2015 American Pointer Club National Specialty Critique

4-6 Puppy Competition

BOB:
Classic bitch in type, head well chiseled with furrow between the eyes, strong well-muscled loin, with tapering tail, hocks well let down and angles at both ends balanced. Clever both coming and going with a proper reach and drive showing strength even as a youngster to be able to begin working afield. There is a bright future ahead for this stunning female.

BOS:
A dog of substance with ears set on to the proper length, carried a good scope of neck extending into a firm back and tapered tail. On the move a bit less fluid than the winner however completely sound none the less.

REGULAR CLASSES:

6-9 Puppy Dogs:

1st: Well fleshed out dog for his age, carrying depth of chest to the elbow, excellent planes to the skull and foreface, would ask for a slightly shorter knit through the loin, tail set on well to a fine taper. Clean from all angles on the move.

2nd: Curvy dog in outline with crisp lines. Head and eye pleasing in shape and eye size. Balanced both front and rear could ask for a touch more angle equally. Honest on the move with tail carried off the back well

9-12 Dogs:

1st: Clever headed dog with alert eye and expression, well defined planes to the head with excellent strength of muzzle, ear length just below the jaw and formed to the correct shape. Muscled wonderfully with correct oval boning. Taught loin and lovely tuck up. Free on the move from the side. Would desire a touch more strength and cleanness going away.

2nd: Dog with excellent pronounced stop and well arched neck, shoulders a tad steep, chest well descended extending into a tight muscled back. Tuck up less visible in profile. Tail was carried well off its back. Solid on the move.

12 to 15th Month Dog:

1st: Clever headed dog with correct rounded eye and wide awake expression. Smooth into neck and shoulders with well let down rear. Correct tail and shape. On the move clean and carried tail to the level of the back.

2nd: Well-cut dog in profile with correct bone and tuck up. Moderate head carried on a lovely long dry neck. A bit straight behind however on the go was more than acceptable. Tail was the detriment carried in too much of a curve

15-18 Month Dog:

1st: Winners Dog, Excellent skull of medium width, chiseled and defined from every angle, flews completely in balance to muzzle, Strong dark eye. When viewed from the side chest was of correct depth, from the front one would ask for a bit more depth between the elbows. Strong firm loin well-muscled and tucked up. Tail set into the croup just slightly below the back line as desired. Tapering to a fine point at the end. Free on the move without over extending at any time. Never a wasted step in motion. Lovely example of Pointer type without any exaggeration.

2nd: Head with muzzle nicely turned up carrying a clean bite to match. Furrowed nicely between the eyes and developed nicely through the stop. Well set on shoulders with chest dropping down well between the elbows. Strong correct use of tail on the move. A bit stubborn on the go diminishing its presentation on the down and back.

Bred By Exhibitor Dog:

1st: Clean headed dog with clean cheeks and no excessive with in skull. A moderate and correct dog in balance. Chest well developed up front carried well through the rib. Short coupled with a bee sting tail. On the move this dog was one of the few who truly exemplified the correct slashing motion of the tail. A trait all but missing in the breed and seen only on a few exhibits.

2nd: A Nicely filled dog in profile. Angled well front and rear. Head was clean and crisp with a pleasing eye and expression. On the move well stationed with it legs, however tail carriage could have been asked to be a touch more level with the back line

American Bred Dogs:

1st: Classic headed dog with stop defined, large open nostrils and beautiful strength of jaw. A taller dog with less angle than one would ask but sound with the look of endurance. Tail was short, tapering and used well in a traditional manner.

2nd: Clever headed dog with proper plane. Short taut back well developed. Underline a little less defined than 1st. Carried a correct tail. On the move was effortless

Open Dogs:

1st: Reserve winners dog, a young dog well deserving of Reserve Winners Dog and the 3pt major to accompany it. While I would have asked for a bit more definition and strength to the head, it was expressive and well fleshed out. The nostrils were open and wide. Neck arched, and of a lovely, yet not

exaggerated length. Outstanding in the body development for his age. Chest dropped in between the elbows. Filled out well in front even for such a young age without showing signs of over-development. Lovely extension both front and rear with head held high. Edged out for winners by a narrow margin solely on expression through the head and definition of the chiseling. A dog to be commended and well deserving.

2nd: A dog while a bit heavy through the back skull was expressive in the eye with a correct stop. A touch elongated through the body, going into a thicker tail. Excellent condition and a clean traveler going around the ring.

Field Dog:

1st: A dog with a lovely head. Muzzle squared off and nasal bone strong and developed. Ears of a lovely size and shape. Flowing neck into the shoulders that were well laid back. Deep chest that allowed for free movement on the go.
Hunting Dog:

1st: A robust dog built of strength and character. Every inch a working dog. Clean lines to the head and expressive through the eye. Angled beautifully behind with tail coming off the croup precisely where desired.

7 to 9 Year Dogs:

1st: Classic headed veteran with well slung chest, angled in balance at both ends. Tail crisp and pointed. Carriage and soundness on the move pushed this dog to the front of the class

2nd A clever dog tall and square. Muscled and fit for the work he was bred for. Would have asked for a touch more angle behind but utilized every bit to its fullest.

9 to 11 year Dogs:

1st. A dog of lovely stature and type. One who utilized his tail on the go. Front well-formed and clean. Clean cut underline.

2nd. Short coupled dog with a proper outline. Chiseled muzzle with good eye and expression.

11 and over dogs:

1st. A very stylish dog for such an age. Classic well cut and defined pointer head. Correct ear length. Tail carried well of its back.

2nd. Head of a pleasing type with correct expression. Lovely short muscled taught loin. Lovely tapered tail.

Bitch Classes:

6 to 9 Bitches:

1st. Quite a stunning bitch for her age. Every bit a pointer in outline. Sound as dollar on the go. Stop well defined with correct ear size and shape. This was also my Best Puppy in show.

2nd. Another lovely puppy bitch edged out only in head type. Angles balanced at both ends. Lovely shape to the tail with correct carriage and flow off the back.

9 to 12 Bitches:

1st. A well-formed bitch who won the class on soundness and grace of movement. Every inch a pointer on the go. In good working condition with great musculature. Correct tail carried well even when excited.

2nd. A very correct bitch in type. Conveying pointer from all angles when viewed. Easily garnering this placement despite being a bit soft behind on the move.

12 to 15 Month Bitches:

1st. Winners Bitch and Best of Winners. An exceptional type bitch whose carriage and grace of movement while still denoting strength stole the show among all the class animals entered. She had the sought after furrow between the eyes. A squared of muzzle with stop cut with precision. Here shoulders denoted speed and grace with the correct thin and sloping construct. An upstanding, short-coupled bitch. The tail tapering to the finest of points finishing off this lovely exhibit

2nd. This bitch in any other competition would be a contender among the best. Exhibited true pointer type as well. Edged out only on the grace of movement but not to be diminished in any way. From the same kennel as first place. Quite a consistent pairing.

15 to 18th month Bitches:

1st. A clever young bitch who utilized the ring with aplomb. Sharp striking head. Correct loin and ribbing and an open gate when viewed from the side on the move.

2nd. Classic pointer in head type above most that were present in the bitch classes. Unfortunately, on the day she was less than will to strike out on the move. Her type in head and outline carried her to the high placement. With a more willingness to go this bitch will hold good promise.

Amateur Owner Handler Bitches:

1st. A nice bitch who challenged her owner at each turn but still proved to be the best despite herself. Lovely eye and expression. Well-developed rib and chest. Angles balanced at both ends.

2nd. An upstanding female of good shape and make. Well cut up in the loin giving the correct profile in view.

Bred By Exhibitor Bitches:

1st. Reserve Winners Bitch. A stunner from the moment she walked in the ring. Rivaled only by Winners bitch and the winner of the Open Bitch Class who was her little mate. A well fleshed out bitch of incomparable type. Built for the work afield. Head type exuded the essence of the breed. Fell short only on the final comparison on the go when put against the Winners Bitch. This bitch is another example of the epitome of type desired in the breed

2nd. A rough class for this bitch to be in as she was of a high quality as well. Perfection on the move with agility and strength. Crisp lines and true point style in every way

American Bred:

1st. Another bitch very reminiscinet of my Winner's bitch and actually a litter mate. A luxurious head with the eye to compliment the expression. While a touch straighter at both ends she capably utilized her legs with no hint of restriction. She was a close contender with the Winners bitch and reserve.

2nd. A correct bitch in many ways. Bespeaking of power and endurance. Beautiful muscling which gave her an easy propulsion around the ring.

Open Bitches:

1st. This bitch was yet again another example of the strength of bitches in the breed. A hard conditioned stunning example of pointer type. Correct planes to the skull. Well-developed chest with tucked up loin. The hocks were clean and let down. Striking on the move with grace and agility.

2nd. A bitch of import with body well fleshed out. Strong beautiful jaw well squared off. Lovely coupling of the loin with angles to support this bitches free flowing gate.

7 to 9 Year Bitches:

1st. A bitch of who type screams pointer in every manner. Head classic when viewed from all angles with and expression to melt even the coldest of snows. Free moving on the go with a lovely use of tail. I would have liked a bit firmer back but her type and grace clearly won this class.

2nd. A bitch in great condition for the age. Taught and tight in the profile. The tail was one of the best of the night. Tapering to a lovely bee-sting point.

9 to 11 Year bitches:

1st. and Award of Merit. A bitch I fell in love with from the moment she walked in. Striking in type and shape. Her movement can rival that of any youngster in the ring. A veteran of this caliber and age speaks

well for the endurance of the breed. She was something special whom I chose to award her with an award of merit amongst all the younger champions. Exceptional to say the least.

2nd. To say this class was strong is an understatement. This bitch challenged my winner from the beginning. Elegant and stylish. Simply edged out on the day by a slight difference in shape and depth of body.

Field Bitches:

1st. A pleasure to judge this class and see lovely type represented in the entire entry. This bitch combined the beauty with the ability to work afield. Never exaggerated on the move. Exhibiting classic pointer outline on the go.

2nd. Another example of a working pointer that can portray what the breed calls for. She was well cut and defined with and easy about her on the go.

Hunting Bitches:

1st. A good foundation spoke well of this bitch. A smart bitch well built with the correct outline and shape. She was recognized as one of my stronger bitches in competition.

2nd. Exhibiting traits that make a pointer well suited for the task in the field, this bitch with her short coupled body and tight knit frame edged out the other competitors

BEST OF BREED: Ch. Yakityak's Reindeer Games
BEST OF OPPOSITE: Ch. Zensu Mousetrap Hunt

When one looking down the line in the Best of Breed competition there is an intrinsic quality one looks for. My ultimate winner was a bitch who had this in spades. From the moment she entered the ring she unmistakably looked the part. She drove off her well balanced rear on the move. Had a head with proper planes adding to her clever smart expression which she portrayed throughout the entire judging. On the go she had the strength one wants without ever becoming a caricature of the breed. Simply put she was the best on the day.

My Best of Opposite dog was the runner up to her and to put it simply he is a stallion of a dog. Not overdone in anyway but utilized every inch of himself to exemplify a true sporting dog. He had some of the best open nostrils of any dog I had seen throughout the day. This dog can offer much to the breeding programs with his style, grace and movement.

To say that this is where the competition ended would be a disservice to the other dogs entered. My Select Awards as well as all of my Awards of Merit and beyond were sublime. Truly these dogs were all similar in type and all had exemplary traits that propelled them to the top. This was an honor of a lifetime.
