## President's Message

Well, summer is almost here finally. I think the older we get, the more we miss it. If you are going to shows, good luck and remember to have fun showing your Pointer in whatever venue you choose. Remember, the 2024 National will be in Doswell, VA, home of Secretariat, so keep your eyes open for information in the future.

I am currently working on the 2022 agility statistics. We have had some issues getting all the reports from AKC for 2022 required to complete them. The other statistics have been completed and they will all be in the June newsletter.

If you have any concerns or questions, don't hesitate to contact myself or any of the board members. Remember to always enjoy the journey with your dogs because there are no guarantees in life

Motion to rescind the following motion – President is unable to show at a national specialty because they send out the contracts to the judges – 20221011-49 PM    [20230404-28 PM](#)

Motion that the Show Chair will communicate with the National Specialty judges. If the role of the Show Chair has not been filled, the judges will receive communications from a generic APC email address, but the sender will not include in the communications his or her name or any other identifying information. [20230404-29 PM](#)

**Retention & Requirement Survey** – Any member who would like to know the results of the survey contact Danny Seymour.

**Website** – AKC Gazette Articles APC Gazette articles starting with December 1938 are being added to the website. It is a great place to start reading the history of our club. More of the articles, in chronological order, will be added every month. To locate the articles on the website, click on About APC > Communications > AKC Gazette

Susan Bleckley was asked why the newsletter and other information is being sent to the membership as an “attachment” and is now being sent as a “link”. The following is a 3-point explanation.

1. Previously, Club emails were sent from personal emails. The sender would have to confirm each member’s email (200+) and manually verify changes with each emailing.

Membership Works, online server, houses all club member emails and saves changes so the sender always has the most current emails.

2. Previously each email address had to have the attachment included (200+) which takes space and slows down the data transfer.

Membership Works houses the attachment and gives the receiver the opportunity to download and open and or save it where and when you want to. Some may choose to wait until they have access to their home computer rather than a mobile device.

3. Both the previous and present administration were/are adamant about using Membership Works to its maximum capabilities.

As long as each member keeps their account up to date, they will always receive pertinent club information in a timely manner.

Susan Bleckley, Webmaster
