2024 OBEDIENCE STATISTICS

American Pointer Club Obedience Rating System

The APC combines points from the Schuman and Delaney obedience rating systems to calculate points for the APC obedience rating system. All Pointers that compete in AKC obedience trials are recorded (the owners are not necessarily APC members). Scores are counted from Jan 1st through December 31st. The Delaney System awards points for high in trial or class placements only. All regular obedience classes are eligible. One point is earned for each dog defeated (e.g., if you are awarded 1st place in a class of 6, you earn 5 pts.) The Schuman System awards points for each time a dog earns a qualifying score in the advanced AKC classes of Open and Utility according to the following table:

Score: 200 Points 8 198-199.5 Points: 7 195-197.5 Points 6 190-194 Points 5 185-189.5 ???4
